About
Our Brand.

Rá-MED Health Tourism was established with a vision to position Egypt as a leading destination for medical and wellness travel. The name Rá-MED is inspired by Ra, the ancient Egyptian symbol of life and renewal, combined with Med, representing modern medicine and healthcare. This identity reflects the brand's mission to unite Egypt's rich healing heritage with contemporary medical excellence.

Founded by a team of healthcare professionals and tourism specialists, Rá-MED was created in response to the growing global demand for high-quality, affordable, and culturally enriched medical travel services. The platform was designed to provide international patients with seamless access to trusted hospitals, clinics, and wellness centers across Egypt, supported by comprehensive travel coordination and post-treatment care.
